30mm 60mm 57g 20 360° <0.1mm

---

## 2. Environmental Protection

The tin box is designed for environmental protection, featuring a protective coating that provides IP67 waterproofing and resists up to 90% humidity. It is tested at 30°C/80%RH with a THC concentration of 1.2% and a weight of 8.7g. The box is made of 18-gauge metal.

---

## 3. Child-Resistant Design

This tin box meets CR (Child-Resistant) certifications with a press-and-twist mechanism requiring >5kg force, reducing accidental opening rates to <0.3%. The 60mm height reserves space for laser-engraved QR codes, aligning with traceability mandates like Canada's Cannabis Act. The box is made of 1.2mm metal.

---

## 4. Dimensions and Weight

The tin box dimensions are 30-30-60mm, with a weight of 35g. It features a protective coating with 98% coverage and a thickness of 42µm. The box is made of 19-gauge metal.

## Regular inventory of more than 1,000 tons of raw materials

which ensures the prices of our tin boxes are stable and the long-term cooperation is more guaranteed
