

269g Chocolate Tin Box: Ideal for High-end Chocolate Packaging

This 269g chocolate tin box is produced by a well-known [Chinese tin box manufacturer](#) and is made of high-quality tinplate material to ensure the durability and protection of the packaging. Tinplate not only has good moisture and oxidation resistance, but also effectively maintains the freshness and taste of chocolate, making it an ideal chocolate storage material.

Beautiful design and practical structure

The dimensions of this tin box are 78x78x141 mm, and the capacity is suitable for storing 269 grams of chocolate. The compact structure design is convenient for storage without taking up too much space, which is suitable for display at home or as a gift.

The lid adopts a spiral structure design to ensure that the box is tightly sealed, while being easy for users to open and close. This design not only improves the safety of the packaging, but also enhances the overall aesthetics, making the tin box both practical and decorative.

Environmental protection and sustainability

The tinplate used in the tin box is a recyclable material that meets modern environmental protection requirements. After using the product, consumers can reuse it to store other foods or items, extending the service life of the tin box, reflecting the manufacturer's social responsibility in environmental protection.

Conclusion

This [Custom 269 gram chocolate tin box](#) not only has excellent functionality, but also adds a lot of appeal to chocolate products through high-end design. It is an ideal choice for chocolate brands and consumers to package chocolate, not only to protect the quality of chocolate, but also to add a sense of sophistication and thoughtfulness to festivals or special occasions.
