[China Tin Box Factory](#) recently successfully customized an exquisite Tin Box for Brushes and Markers for American customers. This tin box is made of high-quality tinplate material with a thickness of 0.23 mm and a size of 180x125x16 mm. It not only provides excellent protection but also shows a high degree of design aesthetics.

High-quality materials

This tin box is exquisitely designed and sturdy, and is tailored for the storage and carrying of brushes and markers. The material thickness of 0.23 mm ensures the toughness of the box body while maintaining lightweight portability, meeting the needs of users in daily use. The appearance of the tin box is carefully designed and can be printed with customer-specified patterns and brand logos, making it both stylish and personalized while maintaining functionality.

The internal compartments of the tin box are well designed to securely hold the brushes and markers to prevent scratches or displacement during transportation. At the same time, the lid fits tightly to ensure that it can be safely closed in any situation and effectively protect the contents.

Professional Design Team

With 15 years of production experience and a professional design team, China Tin Box Factory is able to flexibly meet customers' customization needs. The successful launch of this brush and marker tin box once again demonstrates the factory's leading position in the field of high-end customized packaging. We are always committed to providing excellent packaging solutions for global customers, perfectly combining innovative design with high-quality materials to help customers' brands stand out in the market.

Through the customization of this brush and **marker tin box**, China Tin Box Factory not only demonstrated its strong production capacity and craftsmanship, but also provided customers with a packaging option that combines beauty and practicality. In the future, we will continue to uphold the attitude of excellence and customize high-quality and unique tin box products for more customers.
